About

The SEAT & BACK Positioning Systems of the SENSO Range switch from an unfolded-use configuration to a folded non-use configuration avoiding removal from the wheelchair and facilitating both independent and caregiver-assisted transfers.

Complete suspension of all bony prominences and genitals

2 separate trunk support elements

- shaped
- modular
- padded

Empty central part for spine-coccyx-sacrum relief

Flexible
backrest base
+
Length and
tension adjustable
strap system

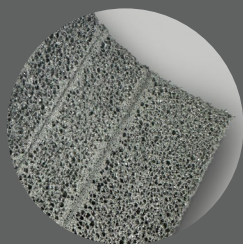

2 separate pelvis and lower limbs support elements

- shaped
- modular
- padded

Flexible
seat base with
reinforcing
elements inside

Tested Materials to ensure lightness, comfort and prevention

Postural inserts

Polyethilen foam - soft density

- Extremely lightweight
- Absorbs vibrations

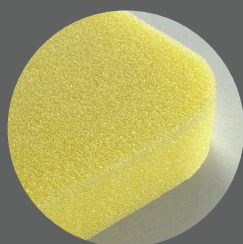

Combined padding kit

Polyurethane foam of different density, lift and memory foam to ensure perfect adherence to the body and movements

Expanded polyurethane foam, flexible and elastic

- Amortizing
- Supports movements

Antidecubitus with low spring back action poliurethane foam

- Provides pressure distribution
- Adapts to morphology

Cover

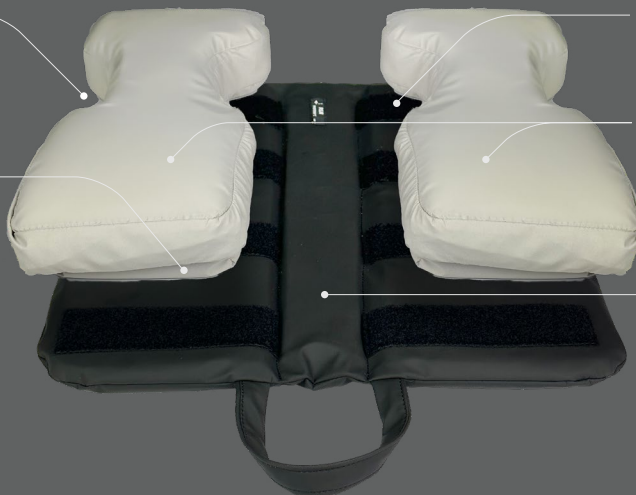

PU/PES combined material

- antibacterial
- non-cytotoxic
- non-irritant
- resistant to virus penetration
- antifungal
- fire retardant
- biocompatible
- OEKO-TEX®
- latex-free
- breathable
- waterproof

Shaped outer side for trochanters suspension

Removable postural inserts to adjust pelvic misalignments in the sagittal plane

Shaped inner side for ischia suspension

2 separate pelvis and femurs support elements

Empty central part for sacrum, coccyx and genitals suspension

The cushion is shown without the upholstery cover

SENSO COMPACTO is the **Postural Cushion** of the SENSORANGE with a simple but innovative structure.

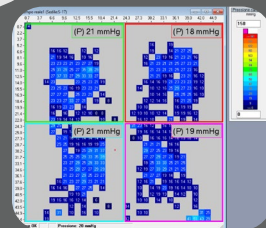

The original **contoured shape** of the two **separate** modular padded pelvis and femur support **elements** ensures **complete relief** of the **areas exposed to greater pressure risk**.

The **outer** and **inner side** of each element is **shaped** for perfect **suspension of the trochanters and ischia**; The **empty central part** between the two elements ensures **sacrum, coccyx and genitals suspension**.

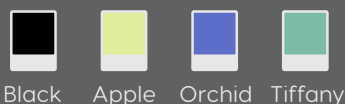

Suspension of the medial pelvic, gluteal, coccygeal, sacral, perineal and genital areas
